# INVITATION TO THE AMON DÜÜL III TRIBUTE COMPILATION

---

**In 2008 I had the wish of launching a compilation tribute to Amon Düül II. Without further... But it keeps tickling me. Every time I listen to Amon Düül II, I think this band is (has been) underestimated. And as far I know, no “tribute” has been dedicated to this famous group. Nine years later, it’s always itching me, so here it is : this is an invitation, the tracks will be published on a Bandcamp (probably the Underground Productions bandcamp).**

**I'm also looking for a graphic artist to create a visual inspired by the album covers.**

**I would prefer songs from  
Yeti (1970)  
Tanz der Lemminge (aka Dance of the Lemmings) (1971)  
Carnival in Babylon (1972)  
Wolf City (1972)  
Vive La Trance (1973)  
Hijack (1974)**
